

FLOWSTAR NEWSLETTER - JULY 2025

KUNKLE 337 NOW IN STOCK

Flowstar now stock the trusted Emerson Kunkle 337 safety relief valve, available in sizes 2" to 3" and suitable for pressures from 0.07 to 4.1 barg (1 to 60 psig).

Designed for dependable overpressure protection, these valves are used for the protection of low to medium pressure high volume blowers, compressors, conveying systems and bulk hauling trailers/equipment.

With extensive stock on hand, we're ready to despatch your order for next-day delivery - minimizing downtime and keeping your operations running smoothly.

Order online on our website www.flowstarvalveshop.com, or email sales@flowstar.co.uk for more information.

HATTERSLEY AVAILABLE AT FLOWSTAR

Flowstar is excited to offer the Hattersley Fig 1732 DRV, now in stock and ready for next-day delivery, designed to deliver precise and reliable flow regulation across your systems.

This compact solution features a user-friendly handwheel with numerical indicator for easy adjustment, plus an integral orifice and test points - eliminating the need for separate metering stations. Fully WRAS Approved for use with potable water up to 85°C, it's a smart and streamlined choice for your next installation.

Available now at Flowstar - order today and keep things flowing.

NAB VALVES - QUICK DELIVERY

Flowstar now offers Nickel-Aluminium Bronze (NAB) Globe and Gate Valves in a range of sizes with short lead times - typically used for seawater and corrosive applications.

The FSV NAB Globe Valve provides precise throttling and tight shut-off, making it perfect for isolation and flow control duties while the FSV NAB Gate Valve delivers robust on-off performance with minimal pressure drop, featuring a rising stem and lockable handwheel for secure operation.
