

Part No: 900033NG-WA

Description: Two-way high visibility droplever gas tap fixed serrated nozzle.
Integral anti-rotation pin.

Applications: Standard laboratory gas tap for Bunsen burner type applications. Suitable for both natural and LPG gas applications.

Construction: All brass body, Rilsan plastic coated, white (RAL 9016).
Identification coding to DIN13792

Connection and mounting: 3/8" BSP male flat ended shank x 60mm long with back nut.
Standard anti-rotation base with location pin. Two mounting holes 17mm and 5mm diameter are required through the work surface, template enclosed.

Service: Natural or LPG gases

Pressure and Flow: Maximum work pressure 20 – 25 Mbar
Flow Rate @ 20Mbar = 1 Cubic metre/hour per nozzle.

Please note: The appliance should be used to size pipe work and not the gas valve (See separate Arboles UK drop lever gas consumption sheet)
British Gas/BSI certified
